

**REMARKS**

Claims 1-12 were previously canceled. In this RCE, Applicants have canceled claims 13-24 and added new claims 25-31. Claims 25-31 are fully supported by the original claims and disclosure. By entering this RCE, claims 25-31 remain for consideration.

The Examiner rejected claims 13-24 under 35 U.S.C. §102(b) as being anticipated by Tanaka et al. (U.S. Pat. No. 6,191,219). More particularly, according to the Examiner, Tanaka et al.'s component (C) (a copolymer of propylene-ethylene-butene) can be the same as claimed B-1 (a propylene-ethylene copolymer) because the claim language of B-1 did not exclude other comonomers.

In new claim 25, Applicants redefined component B-1 as "a copolymer of propylene with ethylene having a propylene content from 55 wt% to 85 wt%." This claim language clearly excludes any other comonomers from B-1. The propylene content range recited in the claim is supported by Specification, page 4, the third full paragraph. Applicants thus believe claim 25 and its dependent claims 26-31 are no longer anticipated by Tanaka et al.

Accordingly, Applicants respectfully ask the Examiner to withdraw the rejection, and allow claims 25-31. Applicants respectfully invite the Examiner to call their attorney, Shao-Hua Guo, at 610-359-2455 if further discussion of the application would be helpful.

Respectfully submitted,  
Tetsuya Fudaba et al.
